

# Volcano Vaporizer vs. Puffco Peak

Unbiased Opinion of Which Vaporizer is Better

# Volcano Vaporizer Pros/Cons

## Pros

- Makes a portable vaporizer “The Mighty” and “The Crafty”
- The Crafty is pocket size, has a Bluetooth Remote Control App and a 90-120 Second Heat Up Time.
- The highly effective temperature regulators and forced air system virtually eliminate the risk of combustion.
- Using vaporizer bags greatly simplifies drawing for an easy vaping experience.
- The level of quality of the craftsmanship.

## Cons

- The cost of the desktop vaporizer is by far its biggest drawback.
- The Classic model you cannot tell precisely what temperature the vaporizer is set at however if you are willing to pay \$600 and upgrade to the Volcano Digit, there is little to no risk of combustion due to the reliable temperature regulation.

Volcano Classic

Volcano Digit

# Puffco Peak Vaporizer Pros/Cons
